M + A MATTING

# M+A Matting. Uncompromisingly Good!

In the mat industry, M+A Matting mats are where design and function come together, where quality isn't compromised to meet a price point, and where solutions to your maintenance and décor problems come first. We promise our customers an unconditional, 100% satisfaction guarantee for as long as you own our product.

The M+A Matting Company is committed to reducing our environmental impact. We are continually improving our environmental performance as an integral and fundamental part of our business strategy and operating methods. We have reduced waste going to landfills by 80% and recycle most paper, metal, cardboard, plastic, carpet and rubber waste we generate. Our commitment is also evident in our development of over 50 mat styles that contain recycled raw materials including the WaterHog Eco line of mats that contain 100% post-consumer recycled PET fiber reclaimed from plastic bottles.

For over five decades M+A Matting has been America's leader in innovative floor protection systems, industrial safety, anti-fatigue products and high performance entrance matting. So if you are looking for better ways to minimize maintenance, prolong floor surface life, reduce cleaning costs, improve safety or increase worker comfort ask for M+A Matting mats—your environmentally friendly choice.

#### ANTI-FATIGUE & SLIP RESISTANT MAT COLLECTION

## Mat Symbols

### Anti-Fatigue

Ergonomic mats and floor tiles reduce fatigue by up to 50%. Anti-fatigue mats help increase blood circulation and reduce pressure on the body's musculoskeletal system. They also reduce foot arch pronation, varicose veins, and pain commonly attributed to standing for long periods of time.

### Safety

Matting and tiles with highly visible, colored borders and beveled edges reduce trips and falls.

### Chemical Resistant

Many M+A Matting mats are manufactured with Nitrile rubber which is resistant to most commonly used chemicals. Please consult the chemical compatibility chart on page 5 for additional information.

### Oily Environment

Nitrile rubber mats withstand degradation from oils and grease. These mats are suitable for use in environments with industrial oils, machine lubricants, greases, food grade oils, etc.

### Wet Areas

May be used in areas where moisture may be present.

### Dry Areas

May be used in dry environments.

### Linkable Floor Tile and Matting

Tiles that can be customized to fit large areas and unique shapes.

### Modular Tile

Modular Tiles for large entrances and floor protection.

### ESD

Matting that dissipates static electricity from people to protect sensitive equipment and small static generated electric shocks.

## Mat Symbols

### Welding Safe

Matting that is suitable for use in locations of high temperatures and welding slag. The temperature resistant rubber can withstand temperatures up to 1742 degrees Fahrenheit from welding slag and hot metal shavings.

### Recycled Content

Contains recycled content.

### Anti-Slip

Uniquely designed texturized surfaces prevent slip and fall accidents. Heavy-duty rubber keeps the mats in place and prevents movement on a variety of surfaces.

### Non-Conductive

Matting created for Switchboards and high voltage areas. Prevents workers from being grounded and reduces the potential for injuries caused by electrical shock.

### Cart Traffic

Matting and tiles designed to withstand heavy cart traffic.

### Anti-Microbial

Matting permanently treated with an anti-microbial agent that guards against degradation from micro-organisms and minimizes mats being a source of odors.

### Scraper

Scraper mats are heavy-duty mats designed to stop mud and larger particles of dirt from being tracked inside buildings.

### Scraper/Wiper

Scraper/Wiper mats provide scraping action and wiping to further stop dirt and moisture from entering a facility. These mats are typically made of tough heavy-duty commercial fabrics. They retain dust in recessed grooves while absorbing moisture in the fabric surface.

### Wiper

Wiper mats are designed to stop any remaining dust and moisture. These mats are made with a variety of carpeted surfaces and colors to compliment a wide range of interiors.

The first letter denotes **Best** choice, the second letter is a **Good** secondary option for the corresponding areas of a facility.

These are the most commonly used mats & floor tiles in industrial manufacturing facilities. The letter corresponds with the area chart to the left to help you locate the correct mat for a specific location.

## Preventative Maintenance

**Mats are the first defense to stop dirt and moisture from entering your building.** Mats filter these contaminants from entering the facility, saving thousands of dollars a year in cleaning costs. Mats also protect interior floor surfaces from excessive damage and wear. Entrance mats are the most effective way of stopping dirt and moisture at the door and keeping building maintenance costs to a minimum.

### Consider These Facts...

- 70% to 80% of dust, grime and dirt in a building is tracked in from the outside on people's feet—permanently damaging floors
- One square yard of carpet can accumulate one pound of dirt a week—twice that in inclement weather
- It is estimated that the cost to find and remove a single pound of dirt from a building can run in excess of \$600 in cleaning costs. As few as 150 people entering a facility can track in one pound of dirt in a 5 day work week costing over \$30,000 dollars annually to remove.
- By utilizing high performance entrance matting of at least 10' to 15' (as recommend by the U.S. Green Building Council and the Carpet and Rug Institute) you can capture as much as 85% to 95% of contaminants that enter the building, saving maintenance dollars and protecting building assets

## Safety and Ergonomics

Mats are used throughout facilities in numerous other capacities where safety is a must and anti-fatigue comfort is essential to the health and well being of employees.

- Slip and falls are the second leading cause of all workplace injuries according to Liberty Mutual Workplace Index. As many as 25,000 people a day are victims of slip and fall accidents(NSC)
- Compensation and medical costs associated with employee slip and fall accidents total approximately \$70 Billion annually(NSC)
- The average cost of a slip and fall injury exceeds \$12,000(Wausau Insurance)
- The average cost to defend a slip and fall lawsuit is \$50,000(NFSI)
- Back injuries account for 25% of all worker compensation claims annually
- Cumulative Standing Trauma(CST) causes Billions of dollars of loss annually due to reduced productivity, increased worker compensation, higher insurance rates and absenteeism
- According to the American College of Occupational and Environmental Science, about 38% of workers in the United States suffer from fatigue. **Testing shows that Ergonomic Matting can reduce worker fatigue.**

## M+A Matting has the right mat for every job.

### Scraper Entrance Mats

Your First Line of Defense

Scraper mats are designed to stop mud and larger particles of dirt from being tracked inside buildings. These mats provide aggressive scraping action and trap dirt and debris in recessed areas until the mats are cleaned. Scraper mats can be used outside or inside and should be used in conjunction with a Scraper/Wiper mat and a Wiper mat.

### Scraper/Wiper Entrance Mats

The Second Step to Keeping Dirt Outside

Scraper/Wiper mats are designed to provide scraping action and wiping to further stop dirt and moisture from entering a facility. These mats are typically made of tough fabrics. They channel and retain dust in recessed grooves while absorbing moisture in the fabric face. These mats are primarily used inside but may be used outside as well.

### Wiper Entrance Mats

The Third Weapon Against Dirt and Moisture

Wiper Entrance Mats are designed to stop any remaining dust and moisture left after using the Scraper mat and Scraper/Wiper mat. These mats are made with carpet facing to complement most interiors. These mats are for indoor use and when used in conjunction with a Scraper mat and Scraper/Wiper mat, they can stop as much as 85% to 95% of dirt and grime from being tracked into a building.

### Logo Mats

Promote a Positive Image

Custom designed logo mats are a unique way to promote a company's image. Logos or other designs can be replicated on the face of numerous styles of mats without any setup charge. Logo mats add a professional look to any entrance, while acting as a further barrier to keep contaminants from entering a facility.

## Waterhog® Backing Types

**SBR Rubber**  
**.078 mil thickness**  
**Cleated backing**

Recommended for carpeted floors.

**SBR Rubber**  
**.078 mil thickness**  
**Smooth backing**

Recommended for hard floor surfaces with light to medium traffic.

**Nitrile Rubber**  
**.100 mil thickness**  
**Anchor Safe backing**

Recommended for hard floor surfaces with heavy traffic and where carts are in use.

### Anti-Fatigue Mats

Provide Comfort and Increase Productivity

Anti-Fatigue mats are available in a wide range of sizes, weights and materials. It has been proven that the proper use of anti-fatigue mats can enhance worker productivity by over 20%. These mats are designed for use wherever workers spend time standing and will help to eliminate muscular skeletal disorders.

### Slip Resistant and Safety Mats

Protect against Slips and Falls

Slip resistant and safety mats help provide safe working areas for employees and visitors to facilities. 85% of worker's compensation claims are attributed to employees slipping on slick floors. The utilization of slip resistant mats is an ideal solution to prevent such accidents from occurring.

### Flow Through Mats

Wet Area Solution

Flow through mats allow liquids to pass through them to eliminate slip hazards. Anti-fatigue properties provide comfort when standing for long periods of time. The thick rubber helps alleviate stress on the legs, feet and lower back.

3/10" Waterhog Low Profile Product No. 251  
1/4" Waterhog Low Profile Modular Tile Product No. 252

- Guards against slip and falls by keeping floor dry and clean....  
80% of slip and fall accidents occur on wet floors
- Low profile flat borders reduce potential tripping hazards
- Available as modular tile or individual mats
- Easy to install and maintain. Perfect for permanent and semi-permanent installations.
- Commercial grade polypropylene fabric for high traffic areas
- Mats feature Anchor Safe Backing made with heavy 100 mil nitrile rubber that keeps mats in place
- Modular tiles feature smooth backing for glue down or two sided tape installations
- 3' x 3' modular tiles can be placed side by side or end to end to build out large areas

## WATERHOG® ECO ELITE ROLL GOODS

3/8" Product No. 2271\* and 2272\*\*

- Environmentally friendly matting solution is made with 100% post-consumer recycled PET Polyester fiber derived from used plastic bottles
- Rubber backing contains 20% post-consumer recycled tires. Available with smooth backing only.
- Permanently reinforced bi-level Waterhog construction effectively allows dirt and moisture to be filtered at the door and contained in the base of the mat, away from foot traffic
- Every square foot of a Waterhog Eco mat eliminates 4 half liter plastic bottles from the waste stream
- May be purchased pre-seamed and bordered or rolls may be purchased separately and installed on site
- Great for large entrances and custom cut applications in sizes up to 12'x 50'

## FLOOR SAFE TILES

1/4" Tiles Product No. 583  
 Storage Cart Product No. 584

- Simple and safe system to protect your valuable flooring surfaces in multi-use applications
- 1 x 1 meter tiles are easy and safe for one person to install
- Simply lay tiles next to each other and build out the area that is being protected for a quick installation
- Mass of the tile installation holds everything in place
- Chairs, tables and other items can be placed on top of the installed tiles
- Carts can be pushed across the tiles
- Storage cart is 40"x40" and holds up to 80 tiles
- Tiles can be stacked on the cart for easy storage
- Low pile polypropylene carpet with bitumen backing is durable and stain resistant
- Medium grey color looks great and matches most decors

**TILE SIZE**  
 40" x 40"

**CART**  
 Holds approximately 80 tiles

## COLORSTAR® PLUSH

7/16" Product No. 180

- Heavy, 35 oz./sq. yd. nylon face creates the ultimate wiping surface
- Double thick Nitrile rubber backing keeps mat stable, even with cart traffic
- Solution dyed nylon face will not fade over time
- Available with grippers for placement on carpeted surfaces and smooth backing for hard surfaces
- Can be machine washed and dried or vacuumed and extraction cleaned
- Perfect for use in grocery stores, airports, educational facilities, Class A buildings or any high traffic entrance way

**M+A Matting offers numerous types of logo mats.**

Each of these logo mat processes result in high quality products your customers will be very proud to use. Pricing is calculated by each individual design number and quantity. Different size logo mats and standard mats may not be combined for quantity discount.

**Ordering Logo Mats is as easy as 1-2-3:**

- 1) Visit [www.mamattng.com](http://www.mamattng.com) to submit your logo file using our easy to use web page.
- 2) Log into your account and simply click on **“Logo Mats”** and then **“Submit Design”**.
- 3) Complete the necessary information on the submit page, attach your logo file and then click on **“Send your design”**. Artwork should be 300 dpi or greater.

Your proof will be emailed back to you within 24 hours. Once your proof arrives by email, please take the following simple steps:

- 1) Approve or make necessary changes to the proof.
- 2) Return the art proof with any changes or approved art proof with purchase order and quantity of mats to [artwork@mamattng.com](mailto:artwork@mamattng.com).

## The Benefits of ANTI-FATIGUE MATS

**Anti-Fatigue mats** alleviate stress to the back and legs by providing a cushioned surface to stand on.

**Anti-Fatigue mats** are perfect for people who have to stand or work in the same place for continual periods of time.

**Anti-Fatigue mats** are recommended for a wide variety of industries and are commonly placed in various applications such as:

- Production or assembly lines
- Stand Up Desks or Workstations
- Kitchens
- Cashier Desks
- Laboratories and many more

**M+A Matting Anti-Fatigue mats** have been shown to do the following:

- **REDUCE ENERGY CONSUMPTION BY UP TO 50%** in the supporting muscles such as those in the leg and the lower back, when compared to standing on a hard floor
- **REDUCE FATIGUE** by promoting subtle movement in the leg and calf muscles, resulting in increased blood and oxygen flow

### BALANCED

- Improves structural alignment and joint function
- Improves muscular balance and prevents nerve impingement
- Reduces uneven wear and tear on joints
- Body weight evenly distributed
- Efficient natural movement
- Reduced pressure on organs

### IMBALANCED

- Neck pain and headaches
- Shoulder restrictions and pain
- Arm and hand pain nerve entrapment
- Bulging discs/back pain
- Uneven pressure/knee pain
- Uneven weight distribution
- Foot and ankle pain

## Safety and Ergonomics

Mats are used throughout facilities in numerous other capacities where safety is a must and anti-fatigue comfort is essential to the health and well being of employees.

- Slip and falls are the second leading cause of all workplace injuries according to Liberty Mutual Workplace Index. As many as 25,000 people a day are victims of slip and fall accidents(NSC)
- Compensation and medical costs associated with employee slip and fall accidents total approximately \$70 Billion annually(NSC)
- The average cost of a slip and fall injury exceeds \$12,000(Wausau Insurance)
- The average cost to defend a slip and fall lawsuit is \$50,000(NFSI)
- Back injuries account for 25% of all worker compensation claims annually
- Cumulative Standing Trauma(CST) causes billions of dollars of loss annually due to reduced productivity, increased worker compensation, higher insurance rates and absenteeism
- According to the American College of Occupational and Environmental Science, about 38% of workers in the United States suffer from fatigue

Testing shows that Ergonomic Matting can reduce worker fatigue.

## ESD Matting

**ESD Matting is designed to quickly drain static electricity from people to help protect sensitive equipment from damage.**

ESD Matting is divided into three classifications:

1. **Electrically Conductive** is rated  $10^1$  to  $10^5$  and accepts static electricity the quickest. This is the most often used ESD matting.
2. **Static Dissipative** is rated  $10^6$  to  $10^9$  and is the middle range of ESD matting.
3. **Anti-Static** is rated  $10^{10}$  to  $10^{14}$  and accepts static the slowest.

ESD Matting is rated in ohms, or the measure of resistance. The lower the resistance, the more quickly static is accepted by the matting, i.e., the lower the exponential, the more quickly static is accepted.

### Accessories

**Ground Cords** are used to allow static electricity to pass more efficiently to a ground and provide a controlled path. Use the cord to connect all ESD floor mats to a building ground. The terminal can be connected to an electrical outlet using the screw in the outlet cover.

**Heel Grounders** are made for workers wearing rubber soles and other insulating shoes. They allow static electricity to pass around the shoe into the ESD matting. Fasten the Heel Grounder to the heel of the shoe with the Velcro and allow the fabric strip to touch the sock or skin for best performance.

- Constructed with a dense cushion encapsulated within oil/grease proof Nitrile rubber
- Green friendly, Nitrile rubber has 20% recycled content
- Electrically conductive. Safe for use in computer rooms and electrical part manufacturing areas.
- Certified slip-resistant by the National Floor Safety Institute
- Can be Autoclave sterilized
- Specific applications include grates, heavy chemicals, heavy oils and welding areas
- Available in 2 surface types—  
Textured Surface: For dry/damp areas where traction is unnecessary. Grip Surface: For wet areas where maximum traction and/or scraping is needed.

Wet Step blue

### WET STEP®

1/4" Product No. 789

Wet Step blue

- Unique design provides excellent slip resistance and anti-fatigue properties
- Soft to walk on with bare feet
- Perfect for use in wet areas. Drain holes allow water to freely drain away.
- Anti-microbial treated for lifetime protection against odors and degradation
- Durable closed cell nitrile rubber cushion is UV resistant and will last for years
- Can be autoclave sterilized for health care use
- Recommended for use in locker rooms, showers, spas and around pools and hot tubs. Also recommended for use in operating rooms and medical scrub areas.

### CUSHION STATION™

7/16" without holes Product No. 370  
7/16" with holes Product No. 371

- Highly durable closed-cell Nitrile rubber cushion combined with uniquely designed construction affords excellent anti-fatigue properties
- Grease and oil proof
- Static dissipative
- Welding safe
- Designed for use in wet or dry areas. Available with and without holes
- Anti-microbial treated for lifetime protection against odors and degradation
- Available in standard sizes up to 20' long
- Flexible Nitrile cushion construction can be cleaned easily
- Can be Autoclave sterilized
- Cushion Station mats are ideal for use in machine shops, work stations or other heavy industrial applications, medical facility environments (i.e., operating rooms, delivery rooms, etc.) kitchens, showers, and locker rooms

# M+A Matting is Committed to Environmental Responsibility

## M+A Matting ENVIRONMENTAL POLICY

M+A Matting believes that businesses are responsible for achieving good environmental practices and operating in a sustainable manner.

We are therefore committed to reducing our environmental impact and continually improving our environmental performance as an integral and fundamental part of our business strategy and operating methods.

Our Policy is to:

- Wholly support and comply with or exceed the requirements of current environmental legislation
- Minimize our waste and then reuse or recycle as much of it as possible

- Minimize energy and water usage in our buildings and processes in order to conserve supplies, and minimize our consumption of natural resources, especially where they are non-renewable
- Apply the principles of continuous improvement in respect of air, water, noise and light pollution from our premises and reduce any impacts from our operations on the environment and local community
- As much as possible, purchase products and services that do the least damage to the environment and encourage others to do the same

- Assess the environmental impact of any new processes or products we intend to introduce in advance
- Ensure that all employees understand our Environmental Policy and conform to the high standards it requires
- Address complaints about any breach of our Environmental Policy promptly and to the satisfaction of all concerned
- Update our Environmental Policy annually in consultation with staff, associates and customers

### LAST YEAR WE RECYCLED...

- 90% of our waste steam
- 1,686,030 lbs of recycled rubber into our products, keeping over 57,000 car tires out of our landfills
- Over 18 million (949,028 lbs) 20 oz recycled drink bottles (PET Polyester) in the manufacturing of our Waterhog Eco products. If you placed these bottles end to end they would reach from Atlanta to San Francisco.
- Over 32,000 mats (220,847 lbs). If placed in one stack of 3' x 5' mats, the stack would be taller than an 80 story building.

*We have over 50 products with recycled content.*

*ENVIRO PLUS has over 85% total recycled content!*

### MAT RECYCLING PROGRAM

M+A Matting is pleased to offer our customers the capabilities of recycling all obsolete or worn out rubber backed mats. We certify that none of the mats returned are placed in a landfill. The obsolete or worn out mats will be ground up to be used either in manufacturing other mats or used for boiler fuel.

For more information, call us at 1-800-241-4696 or e-mail [customerservice5@mamatting.com](mailto:customerservice5@mamatting.com)
